Aflatoxin, effect on mink reproduction 750
Air, dioxin and benzofuran in smoke 340
limestone dust and chlorophyll degradation 852
PAH and urban poor 757
PAH in Argentina 333
Alachlor, degradation in clay loam soil 506
degradation in tropical soil 24
effect on excretion of aldehydes 565
immunotoxicity 266
Allium cepa, cytotoxicity of distillery waste 199
Aluminum, effect on lipid peroxidation 85
effect on thymus DNA 92
Aminoethanol, toxicity to fish eggs 878
Aniline, toxicity to fish eggs 878
Anthraquinone dyes, degradation by *B. subtilis* 522
Antiscalants, toxicity to gametes and embryos 108
Arsenic, effect on brain biogenic amines 100
in water, soil, sludge, Spain 356
Asbestos, at autopsy in cancer patients 325
Atrazine, removal from clothing 811

Benlate, toxicity in chickens 817
Benomyl, toxicity in chickens 817
Benzene, in chemical products 794
skin sodium transport 132
Benzofurans, in rice straw smoke 340
Benzophenone, liver toxicity 282
Bioassay, actin filament and paraquat toxicity 717
Artemia feeding and larval growth 179
dehydrogenases and phosphatase for liver function 586
hair for cadmium exposure 736
immunoassay for PCB 219
life table for waste toxicity 377
nitrogen fixation for pollution 466
OP compound analysis in water 433
phthalate contaminants in samples 528
respirometric test and metals 703
spectrofluorometry for oil in water 802
water/sediment sampler 1

Cadmium, Zn and Hg on tilapia 891
in diet, Spain 417
in human hair 736
levels in fertilized soil 61
pollution and fattening calves 561
stage toxicity *B. arenarum* 608
temperature and toxicity to tadpoles 212
uptake in lettuce 709
Captan, toxicity to algae and fish 392
Carbaryl, toxicity to egg, larva, fry 593
Carbendazim, residues in poppy, *P. somniferum* 57
Carbofuran, effect on soil microorganisms 49

Carbofuran, toxicity to algae and fish 400
toxicity to earthworms 407
toxicity to egg, larva, fry 593
Carbosulfan, soil persistence 29
Chloroacetaldehyde, toxicity to fish eggs 878
Chloroacetophenone, effect on pulmonary immune system 69
Chlorpyrifos, microencapsulation and soil distribution 458
toxicity to earthworms 864
Chromium, in vegetables, Spain 514
toxicity to fish 144
Copper, accumulation, transfer by *O. pusilla* 689
effect on amphipod feeding rate 883
growth of *A. nidulans* 600
in *Porcellio spinicornis* 922
in vegetables, Spain 514
toxicity to *Nostoc calcicola* 192
Cyanide, encephalopathy, amino acids, ammonia 274
in swimming pools 12
Cyclohexanol, toxicity to fish eggs 878

Dacthal, degradation in soil 226
DDT, sibship and serum levels 300
Detergent, effect on temperature response, growth of fish 659
SDS effect on echinoderm sperm and embryos 646
Diazinon, accumulation and excretion in eel 578
Dibutyltin, behavior changes 286
Dimethylamine, toxicity to fish eggs 878
Dioxin, in rice straw smoke 340

Earthworm, toxicity of chlorpyrifos 864
Effluent, fish egg hatch and viability 640
Endosulfan, accumulation and excretion in fish 572

Fenamiphos, movement in soil 35
Fenitrothion, toxicity to *Rana temporaria* 116

Glyphosate, degradation in soil 499

HCH, fate and conversion on gram 798
Heavy metal, accumulation in grass cutter 823
Al and lipid peroxidation 85
Al effect on thymus DNA 92
Cd and fattening calves 561
Cd in diet, Spain 417
Cd in fertilized soils 61
Cd in human hair 736
Cd stage toxicity *B. arenarum* 608
Cd uptake in lettuce 709
Chronic effect of Cd, Zn and Hg on tilapia 891
Cr, Cu, Ni, Zn and fecundity of cladoceran 633
Cr, Cu, Zn in vegetables, Spain 514
Cr, Pb, Zn in human fingernails 547

Heavy metal, Cr, temperature and toxicity to tadpoles 212
Cr toxicity to fish 144
Cu accumulation, transfer by *O. pusilla* 689
Cu and Ni in *Porcellio spinicornis* 922
Cu and Zn effect on amphipod feeding rate 883
Cu and growth of *A. nidulans* 600
Cu toxicity to *Nostoc calcicola* 192
effect on respirometric test 703
groundwater contamination, India 138
Hg in oysters, Australia 158
Hg ovarian effects in frog 385
Hg in walleye, Wisconsin 612
in aquatic organisms, Italy 618
in clams, agriculture 915
in epigeic fauna 232
in Finnish elk 834
in lobster and whelk, Long Island, USA 626
in oysters from agricultural drainage basin 696
in sediment, Honduras 253
Pb and Ca effect on frog heart 77
Pb effect on hemopoietic cells in doves 779
Pb in pregnant women 533
Pb in school children 730
poisoning cases, Zimbabwe 260
trophic levels 232
Herbicide, acrylic polymer adjuvants and leaching 449
distribution in soil 474
triazine effect on algae 369
uptake by corn 474
Hexachlorobenzene, effect of cooking in meat 828
Hexachlorocyclohexane, fiber effect on β-glucuronidase activity 293
Human, asbestos in cancer patients 325
atrazine removal from clothing 811
Cd in diet, Spain 417
chlordane, oxychlordane, nonachlor in skin and blood 316
Cr, Pb, Zn in fingernails 547
cyanuric acid in swimming pools 12
indoor exposure to PAH 757
lead exposure in children, Saudi Arabia 730
organic solvents in correction fluids 787
organochlorines and PCBs in milk, France 425
Pb and urinary microglobulin 744
PCBs and organochlorines in milk, Spain 308
PCBs and organochlorines in serum 8
PCBs, Canada 842
pesticides in milk, New Guinea 540
poisoning cases, Zimbabwe 260
selenium metabolites in urine 19
sibship and serum DDT 300
teeth for lead exposure 724
Hydrogen sulphide, toxicity to fish 164

Immunoassay, PCB in soil 219
Iron, accumulation in tilapia 674
Isopropylamine, toxicity to fish eggs 878
Lead, and calcium effect on frog heart 77
human urinary microglobulin 744
in pregnant women, Mexico 533
in school children, Saudi Arabia 730
kinases, dehydrogenases, hemopoietic cells in doves 779
teeth as indicators in humans 724
Limestone, dust and chlorophyll degradation 852
Lindane, in lake water, Greece 247
toxicity to fish 187

Malathion, toxicity to egg, larva, fry 593
Mercury, in oysters, Australia 158
in walleye, Wisconsin 612
ovarian effects in frog 385
Methylamine, toxicity to fish eggs 878
Metolachlor, degradation in tropical soil 24

Naphthalene, skin sodium transport 132
Natural product, antibiotic from marine alga 171
Neopybuthrin, liver microscopy in tilapia 682
Nickel, in *Porcellio spinicornis* 922
Norflurazon, in alluvial soil 441

Oil, estimation in seawater 802
hemosiderosis in birds and fish 125
toxicity of water to aquatic organisms 413
Organochlorine, chlordane, oxychlordane, nonachlor in human blood and skin 316
cooking and hexachlorobenzene in meat 828
HCH fate and conversion on gram 798
hexachlorocyclohexane--fiber interactions 293
in canned cod liver 929
in human milk, France 425
in human milk, Spain 308
in human serum 8
insecticides in bats, Spain 871
pesticides in human milk, New Guinea 540
pesticides in tea, camomile and linden 479

PAH, in air, Argentina 333
in aquatic organisms, Italy 618
in lobster digestive glands 907
microbial degradation in soil 486
synergisim with *Daphnia* 363
Paraquat, possible actin filament target 717
Partition coefficient, distribution of hydrophobic contaminants 205
PCB, in bats, Spain 871
in human milk, France 425
in human milk, Spain 308

PCB, in human serum 8
in humans, Canada 842
immunoassay in soil 219
Pendimethalin, movement in soil 492
Pentachlorophenol, uptake by fish 653
Phenanthrene, skin sodium transport 132
Phenol, effect on skin sodium transport 132
Phenylurea, recovery of *N. muscorum* 665
Phosphamidon, toxicity to egg, larva, fry 593
Phthalate, contaminants in environmental samples 528

Selenium, metabolites in human urine 19
Solvent, hazards in correction fluids 787
Sulphide, toxicity to fish 164
Sulphonate, in river estuary 241

Telone, effect on soil microflora, nitrification 43
Thiotriazone, effect on GSH 554
Thiram, membrane effects 764
Tin, dibutyltin and behavior 286
tributyltin toxicity to grass shrimp 152
Triazine, recovery of *N. muscorum* 665
Trihalomethane, effect on heme metabolism, metallothione in content 772
TTZ, effect on GSH 554

Vorlex, effect on soil microflora, nitrification 43

Water, algal recovery after herbicide exposure 665
antibiotic from marine alga 171
Ar in water, soil, sludge, Spain 356
Artemia larval growth bioassay 179
captan toxicity to algae and fish 392
carbofuran toxicity to algae and fish 400
contaminants in sturgeon, USA 898
cyclic aromatics and skin sodium transport 132
cytotoxicity of distillery waste 199
detergent, temperature response, growth in fish 659
diazinon accumulation and excretion in eel 578
distribution of hydrophobic contaminants 205
effluent and fish egg hatch 640
egg, larva, fry response to carbaryl, carbofuron, malathion, phosphamidon 593
endosulfan accumulation and excretion in fish 572
estimation of oil 802
fenamiphos movement in soil 35
heavy metals and fecundity of cladoceran 633
heavy metal and PAH in aquatic organisms 618
heavy metal contamination, India 144
heavy metals in clams, agriculture 915
heavy metals in lobster and whelk, Long Island, USA 626
heavy metals in oysters, agriculture 696

Water, heavy metals in sediment, Honduras 253
herbicide leaching 449
hydrogen sulphide toxicity to fish 164
kraft mill waste toxicity to *Daphnia* 377
microbial degradation of groundwater chemicals 856
neopybuthrin and tilapia liver 682
norflurazon in alluvial soil 441
oil/hemosiderosis in birds and fish 125
organic pollution, Dokai Bay, Japan 348
organochlorine compounds in cod liver 929
organophosphorous pesticide analysis 433
PAH in lobster digestive glands 907
pesticides, Greece 247
sulphonates in river estuary 241
synergisim of PAHs with *Daphnia* 363
toxicity of antiscalants 108
toxicity of oil terminal water to aq. org. 413
toxicity tests on echinoderm sperm and embryos 646
triazine effect on algae 369
tributyltin toxicity to grass shrimp 152
uptake of pentachlorophenol by fish 653
water/sediment sampler 1

Zinc, accumulation in tilapia 674
effect on amphipod feeding rate 883
effect on echinoderm sperm and embryos 646
in vegetables, Spain 514
